INTRODUCTION

I am a web development student with a background in computer programming and interactive media design. I enjoy creating clean, responsive websites, simple user interfaces, and organized project layouts. My goal is to grow as a junior web developer while improving my skills in front-end development, WordPress, UI design, and teamwork.

EXPERIENCE

COLLEGE WEB DEVELOPMENT PROJECTS | Algonquin College

2026

- Built responsive web pages using HTML, CSS, JavaScript, WordPress, and Bootstrap.
- Created class project layouts with clear structure, spacing, navigation, and mobile-friendly design.
- Used GitHub to organize files, track changes, and prepare projects for review.

STUDENT LIFE PLANNER DASHBOARD | JavaScript Project

2026

- Designed a student dashboard for tasks, deadlines, short notes, and study planning.
- Added task create, edit, delete, completed status, filters, and localStorage features.
- Prepared desktop, tablet, and mobile layouts to make the dashboard easier to use.

CUSTOM WORDPRESS DESTINATION SITE | CMS Project

2026

- Created a custom WordPress theme with header, footer, page, search, and front-page files.
- Added navigation menus, widgets, featured images, Bootstrap cards, and responsive CSS.
- Presented the site as a complete college web project with clear styling and structure.

APOD COSMOS WEB PROJECT | API Project

2026

- Built a web page that connects to the NASA APOD API and displays image content dynamically.
- Practiced JavaScript fetch, async functions, error handling, and clean visual layout.

PERSONAL BRAND AND PORTFOLIO LAYOUT | Design Project

2026

- Developed a personal brand system with colours, typography, resume, CV, and portfolio mockups.
- Applied a consistent visual style across school deliverables for a professional presentation.

GRADUATE SHOWCASE WEBSITE PLANNING | Group Project

2026

- Worked on project research, lo-fi wireframe planning, and page layout ideas for a showcase website.
- Focused on clean project page structure, simple navigation, and responsive design planning.
